

What is Canvas?

Canvas is an Online Learning Management Software Program. It is available through any web browser or as an app on your smartphone or mobile device. It streamlines classroom work to one location where teachers can post and grade assignments, and students can complete work and receive feedback from teachers. Canvas was adopted by the State of North Carolina in 2014 for all public school districts. UNCC (University of North Carolina at Charlotte), CPCC (Central Piedmont Community College), and NCVPS (North Carolina Virtual Public Schools) have also adopted the use of Canvas.

How do students access Canvas?

A screenshot of the NCEdCloud IAM login page. The page has a grey background and a white form area. At the top left, it says "NCEdCloud IAM". Below that, it says "Do NOT bookmark this page." The form contains a dropdown menu with "NCEdCloud" selected, a text input field for "NCEdCloud Username", a text input field for "Password", and a "Login" button. Below the login button are three links: "Forgot My Username", "Forgot My Password", and "Claim My Account". At the bottom, it says "For logon assistance, please visit our support page" and "powered by IDENTITY AUTOMATION".

Students access Canvas through their NC Ed Cloud. NC Ed Cloud is a service delivery platform or one stop login for all students to access accounts provided and supported through the North Carolina Department of Public Instruction. In other words, by logging into their NC Ed Cloud, students have access to all of their digital accounts without having to remember multiple logins.

Next Steps:

Verify your account setup in the email you entered.

Log into your account:

<https://cms.instructure.com/login/canvas>

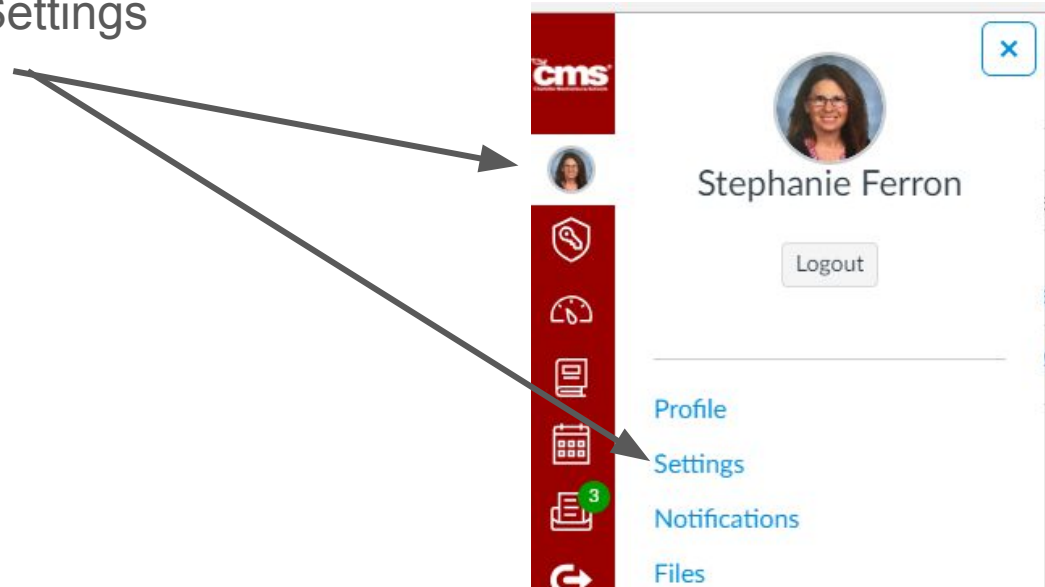

Do you have more students to add?

Adding Additional Students:

Log into your Canvas Parent account on a computer:

<https://cms.instructure.com/login/canvas>

Go to your Account and Settings

Adding Additional Students:

- Select Observing
- Click Add Students and enter more ID Numbers and Pairing Codes
- You should see all students paired with under Observing screen

The image shows a screenshot of a web application interface. On the left, a navigation sidebar is visible with the following items: 'cms' logo, 'Account', 'Dashboard', 'Courses', 'Calendar', and a printer icon. The main content area shows the user 'Stephanie Ferron' in the 'Observing' section. Below the breadcrumb 'Stephanie Ferron > Observing', there is a list of menu items: 'Notifications', 'Profile', 'Files', 'Settings' (highlighted in blue), 'ePortfolios', 'My Badges', and 'Observing'. In the center, the 'Observing' section contains a 'Student Pairing Code' label above an empty text input field, and a blue button labeled '+ Student' below it. Two arrows originate from the text on the left: one points from 'Select Observing' to the 'Observing' menu item in the sidebar, and another points from 'Click Add Students' to the '+ Student' button.

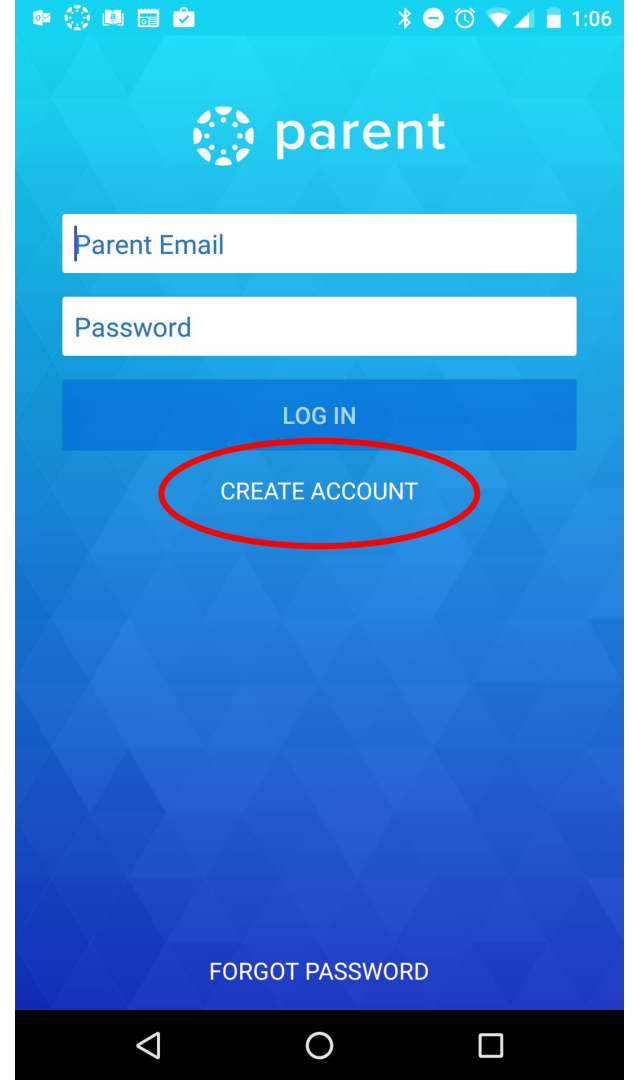

Once you have set up your Canvas Parent Account on a computer, then you can set up the app on your phone.

Note under Notifications you can set up how often you would like to be notified of your student work both on the app and on the computer.

First Time Accessing The Parent App

Select "CREATE ACCOUNT" the first time you access the app.

Once you have created your account, you can log into the parent app from any device.

Enter student's institution

Enter "cms" in the "student's institution" field.

Your student's courses

You may not see any courses if the teacher has not published their course for your student to see it.

When courses are available, you will be able to see assignment details such as due dates as well as your student's work submitted for that assignment.
